

## PURE PEEL<sup>2</sup> 30 ml

PURE PEEL<sup>2</sup> (with new and improved formula) stimulates cell renewal, very suitable for acne treatments and the improvement of skin texture, keeps the pores clean, to prevent clogged pores and pimples, further: keratolytic, anti-blackhead, anti-inflammatory and antiseptic properties.

### Mechanism of Action:

Slightly superficial peeling. Very suitable for acne treatments due to a combination of Azelaic acid and Salicylic acid. Lactic acid and glycolic acid work synergistically by stimulating cell renewal and skin rejuvenation.

### Active ingredients:

- Azelaic acid (16%) – is an FDA approved skin care ingredient used for treatment of acne and rosacea. Azelaic acid kills acne bacteria in existing pimples and it's an OTC option for treating cystic acne. Azelaic acid also prevents future whiteheads and blackheads from forming. Azelaic acid lightens acne scars as well as melasma, and it's anti-inflammatory properties calm rosacea and redness. Safe for all skin types.
- Glycolic acid (14%) - exfoliates the epidermis, promotes epidermolysis, disperses basal layer melanin and stimulates the growth of new skin. Glycolic acid also reduces the amount of surface skin oil.
- Lactic acid (14%) - mild fruit acid, stimulates collagen synthesis, mild exfoliating.
- Salicylic acid (2%) - has keratolytic, comedolytic, anti-inflammatory and antiseptic properties. Its lipophilic properties enable the salicylic acid to penetrate and dissolve sebum, making it a highly effective therapy for acne.

### Suitable for:

- Inflammatory and non-inflammatory acne
- Blackheads and comedones
- Rough texture, fine lines and wrinkles
- Enlarged pores, dull, sallow skin color

Must be mixed with the CLINICARE Peel Blender to perfectly tailor the peel strength and acid pH.
